

Engage and Pathway

Keep your players connected with a new level of gaming experience.

Engage is an innovative and unique player engagement tool, offering players an enhanced gaming experience through promotions, games and more.

Available in New South Wales and Victoria.

Each Engage enabled machine allows you to customise key interactive components to get the right information to your players.

Engage is an innovative and unique player engagement tool, offering players an enhanced gaming experience. Engage is the combination of Pathway, the in-machine touch screen, and the Engage application. Together, this creates a functionally rich, venue operated, player engagement tool.

Having the ability to design and launch targeted media to each gaming machine, Engage will allow you to build strong relationships with your members whilst being less intrusive.

The presentation of Engage graphics enhances your venue branding, replicating its appearance, maintaining a coherent look as well as enabling seasonal changes to keep players informed on entertainment, food and beverage offerings and promotions.

With a multitude of features operating through Engage, expanding your customer's experience has never been easier. It enables an attendant paging service, BreakAway feature (if the player needs to step away for a moment) and the ability to view bonus points if your venue has CARD IT functionality.

Create multi-channel content that allows separate imagery for each member tier level as well as for uncarded play. Having multiple languages also helps address communication barriers that some players may experience, a customisable feature that Engage includes. Finally, games on Engage are flash enabled and allow for interactive content to award prizes, celebrate a member's birthday or display important and engaging content for your venue.

Interactive Pathway screens allow for an engaging player experience.

Themed custom skins

Venue information

Advertise promotions/events

Member group streaming

Multi lingual Pathway

Extensive game library

Get the most out of Engage.

Self-manage and schedule your customised streaming content ahead of time.

Provide more entertainment for players with an extensive range of promotional games¹.
