

TITO

Enhance the player experience with our Ticket-In, Ticket Out (TITO) Solutions.

TITO provides both players and venues with a reliable way to manage cash in a gaming room.

Available in New South Wales.

Assure your players with reliable TITO transactions.

TITO is a gaming solution that enables venue customers to transfer credit from gaming machine to gaming machine via the inserting, printing and redeeming of bar-coded tickets.

Venues with the TITO solution can allow players to insert cash into a gaming machine and begin to play. When the player is ready to finish, they press COLLECT and a barcoded ticket is printed with the collected payout amount. This ticket can then either;

- Be inserted into another TITO enabled gaming machine via the bill acceptor.
- Redeemed for cash at a credit redemption terminal (CRT) or cashier station.

The TITO solution provides a range of potential benefits to both venues and players, including;

Increased gaming floor efficiency – decreasing the number of hand-pays and hopper refills, resulting in longer periods of gaming machine operation.

Increased staff efficiency – manual processes such as hand pays are reduced, freeing up floor staff.

Increased level of customer service – reduced time at cashier stations and easy transition from one gaming machine to another.

Reduction in the amount of cash handling required, reducing the potential for errors.

Increased security – cash on-site to be secured within CRTs.

Detailed usage information reporting to better understand player behaviours.

Get the most out of TITO.

Staff can process payouts more efficiently.

Reduces the risks associated with cash handling.

Allows players to move easily between TITO enabled machines.

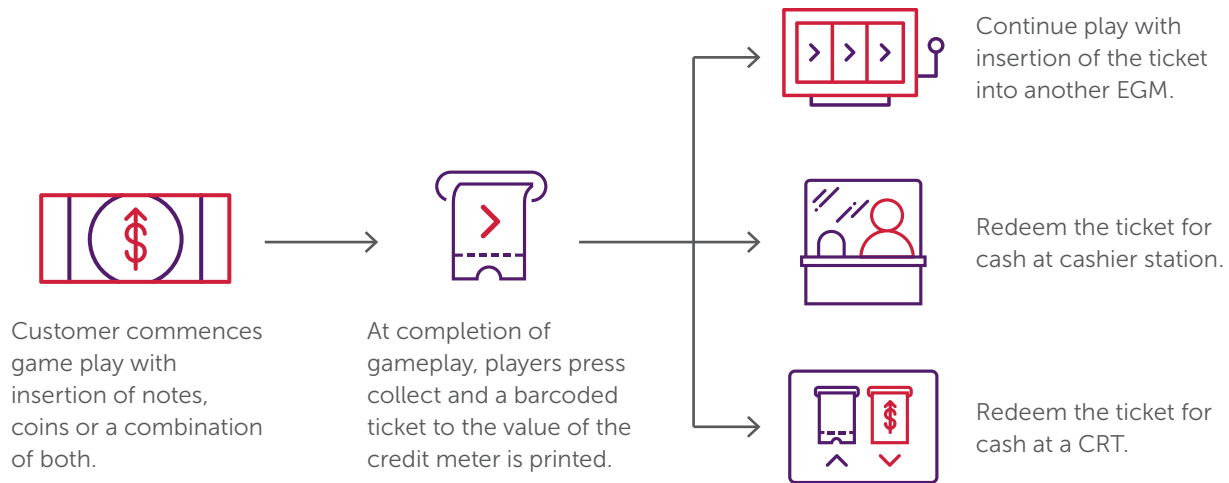

Minimal player education required.

Ongoing training, service and support.

TITO allows players to move easily between ticket enabled machines.

The TITO process is simple.

TITO provides a range of potential features to both venues and players, including;

- Players can insert tickets up to the value of \$2,000 into an EGM.
- Tickets up to the value of \$10,000 can be collected by a patron from an EGM. Any ticket which exceeds \$2,000 will need to be keyed off by a venue gaming attendant.
- Players can receive CRT payouts to the value of \$5,000. However, venues have the option to set a collection limit below this. Tickets above \$5,000 or the venue limit can be redeemed at the cashier.
- Tickets remain valid for the player to use at either EGM or CRT for up to two days and at the cashier for up to 12 months.
